DA X
SPIRIT OF XCELLENCE
TRANSFORM YOUR FUTURE

Go Home

The atmosphere was electric as Pastor Andy charged the group of teenagers gathered by letting them know that they were not there by accident and that God had scheduled this meeting for them and they would not leave there the same. He took his text from the book of Mark 5 1-20 the deliverance of the man in the country of the Gadarenes who had his dwelling among the tombs and no one could control him.

The healing of the man brought fear to the hearts of those who witnessed. The man who had been possessed with devils wanted to follow Jesus, Jesus declined and asked him to go home. It was understandable that the person who got healed would want to hang around the healer but Jesus said no go home. At this point, silence filled the room as everyone, hung onto Pastor Andy's every word.

Pastor then said, the people did not ask the healed man to leave, only Jesus. Jesus asked the healed man to hang around with his friends and relatives telling them the things that had happened to him. God swapped the unclean spirit with an excellent spirit, but the same people who did not accept Jesus accepted the healed man.

There are people in our neighbourhood who will not accept our Pastor or listen to him but they will listen to us. Ever generation of teenagers are different, with a different style and language. Jesus doesn't want you to change your style of speaking and start talking King James Version Bible language; He wants you to use your everyday language to reach those around you.

The Spirit of God is now in your life and this should not be the end but the beginning of your journey. Go back and share that new Spirit with your neighbours, friends and family.

What Da X Q&A::

What Da X TEENS:

Question: What are your feelings and expectations about this years What Da X?

Linda Adesanya:
'Rehersals have been tough but very enjoyable (its) my first IGOC and What Da X so I want it to touch peoples lives during next few days so help give lives to Christ'

Melissa Owusu:
''Looking forward to it, more previous than pervious years. People come that are not Christian so want a different What Da X..experience different lives being touched'

David Adesanna:
'For God to make a difference, its not as big as IGOC but God uses the small..want people to concentrate and the message to reach'

Question: What are your expectations & experiences in IGOC 2010?

EvaMaria Wilberg, Sweden:
'This is my 12th IGOC, the first three years I came, I could not understand what the Pastors were saying because of the Nigeria accent! But there was the sense of the Spirit. It is good to be under the annoiting. I quoted The word from daniel about excellent spirit over again...want to grow more. Its good to be under the annoiting. Many people go to majorca to lie in the sun but I come to a christian conference'

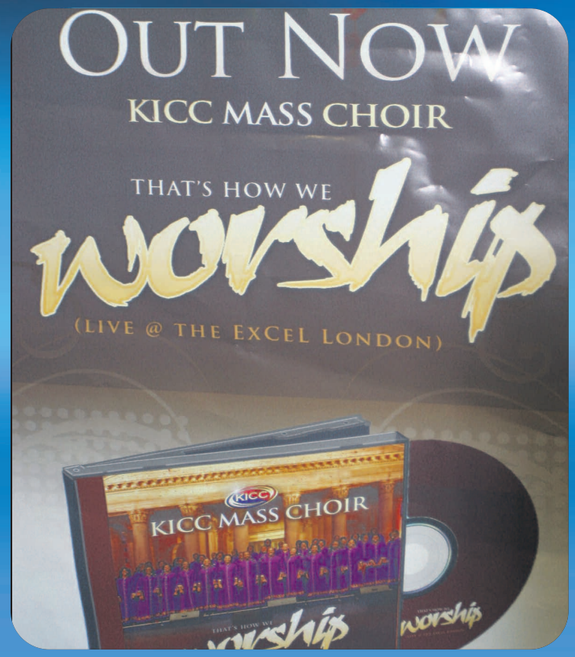
A WORD FROM OUR HOST

Welcome to the third day of the International Gathering of Champions. What a joy and a pleasure to have such wonderful speakers depositing a Word from the Lord into your life. Now that you are pursuing excellence, may the Word stir up further that which is within you. God's desire is for you to succeed and as His Word shall not depart from your mouth, meditate on all that you have received, putting it into action and you shall prosper, having good success. As God continues to call you to a better life, it is time to answer that call and be excellent.

I pray that you are baptized with fresh anointing and that God will send you destiny helpers, making your dream and vision of excellence a reality.

Matthew Ashimolowo



TOMORROW'S AGENDA

10am to 12noon
2pm – 4pm
Bishop Tudor Bismark

7pm – 8pm
Pastor Dipo Oluyomi

8-9:30pm
Pastor Matthew Ashimolowo

DOMINION MANDATE

Dr Mensa Otabil

contd...Multiplication

He started by reminding us that It is imperative for us to be fruitful. God commanded man to be fruitful but beyond that is the multiplication of the fruit. For example if you come from the recording studio with a master tape of recorded songs in your hands and do nothing with it, that will be all that you have but if you then go to a second studio called a duplicating studio to run several copies of the master tape you will then move from fruitfulness to multiplication. The principle of multiplication is taking one idea and letting it grow. To multiply means to increase, expand, exceed or excel and to greatly abound.

Multiplication he continued; comes from two words, 'multi' which is a short form of 'multitudes' and 'ply' meaning layer or fold e.g. plywood is a piece of wood if you take a section of it, although the wood looks like one piece there are different layers within it, up to 9 'plys' or folds. Manufacturers glue these folds together. The principle of multiplication is the principle of adding layers upon layers.

Isaac, he said; sowed and reaped! This was fruitfulness – level 1, he continued prospering and started adding layer upon layer until he became prosperous. Here we see sustained growth, Isaac continued prospering. He sowed crops initially but he diversified into other areas like herds, flocks and servants. What made Isaac prosperous was not the crops but the water industry. Isaac did not sow in the dry land. He said when Isaac went to Gerar there was famine but he remembered something that his father Abraham had developed a technology to counteract the drought. He developed an irrigation system, then sowed in the land and God gave him a hundred fold return. He also had a huge work force which caused the Philistines to envy him but they could not do anything about it. He positioned himself in such a way that the government could not contend with him.

Isaac had a multi layered business. It is a tragedy in life for any human being to have only one source of income. Your wealth should flow from different streams.

Multiplication happens faster than fruitfulness because the moment something is introduced people try to copy it. He sighted the example of the Wright brothers in 1903 who developed the first plane, prior to that time people had tried all sorts of ways to get people to fly. The brothers were fruitful in this breakthrough development but it wasn't until 1917 during the 2nd WW that aeroplanes were used in combat, the idea of flying progressed so much within 14 years. Fruit must be multiplied, the one who multiplies it is the one who makes it.

He then gave us the characteristics of a multiplied fruit. It has complexity, it is able to do more, new knowledge has been added and it has a greater application. An example is the telephone which new layers have been added to it since its initial breathrough development. The church initially also concentrated on the preaching of salvation, but it now has a multiplied effect. We now have teachings on the Holy Spirit, healing finance, real estate, etc. It has simplicity, it is easily operated, the functionality has increased with the use of the telephone. It has availability, it is easily obtained and also affordability and cheaper costs.

Quoting from Proverbs 24 : 3-4, he said there must be the building process of an idea / concept. Building requires technical skills, also beyond this, an establishment requires the capacity to discern right. For example preaching requires a calling and an anointing to preach because when people come to church, they bring their problems with them. Human resource management is required. People may have technical skills to build but may not have the understanding to build the system required for its operation. Abundance requires morality and integrity.

God could give us an idea. Ideas are private but products are public. If you don't develop your own idea someone will take it and improve on it.. You must name and own the ideas you give birth to.

Blessing In God! This was the opening to Pastor Paula White's message; the words resonated around the hall, blessing eager believers.

Pastor White continued; 'our dreams and visions are often larger than our reality because they are in our spirit!' God who is Spirit, does not reason with our minds but talks to our spirit and our brains would often struggle to comprehend these things. God tells us things we're not physically capable of doing but His capability working through us and in us produces the result!

God has different parts for peoples' lives, but these all fit to make up the bigger picture. God is raising us to the position where we can fulfill His plans for our lives. He places a demand on us so His plans spoken in Jeremiah 29:11 can manifest. Anything that does not line up with God's plan for us should not co-exist in our lives. These lead to a broken focus which will keep us from the promotion God has for us. Once you let go of some things, you will be able to see where you're going. Shouts of Hallelujah echoed as people reponsed to the Word. Pastor excelled, imparting that; you should be prepared to go through some things to get to where you're going! Everything you went through was part of the process. Part of the process of getting there is learning to live with the big things and the small things.

When God calls you, it is often beyond your skills and abilities but He is faithful and will see you through it. You may need to work and develop these skills further but if you want to do God's will, you will find a way, so no more excuses! When you surrender to God, you surrender to His ability. To settle the message so it would dwell with all who heard it, Pastor carried the message further; 'the most brilliant minds won't just come from the top universities, they will come from our churches because God has illuminated our minds with His revelation!' Revelation is a result of God communicating with us. It causes us to act according to that which has been deposited in our spirit. It causes movement inside of us, Hebrews 11. The movement is by faith!

It takes some form of tension for faith to function. You don't know if you have enough faith until you're under pressure. The real you comes out when you're under pressure. Faith in God will move mountains and the single greatest motivation of faith is hope. Hope predicated by the love of God and fueled by your faith. Once you have faith with hope, you expect things to happen. Base that faith on God's Word and charaxcter and abide in Him constantly. Be grateful because none of the things we go through make us.

The Attitude of Excellence

Pastor Paula White

You have got to have an attitude of excellence; Luke 1:26-38, many of us want to be used by God to be world changers but we often may not know how this will happen due to circumstances. However with God, nothing shall be impossible; Luke 1:37. He will extract His Greatness out of you to transform things on the outside.

We are in a season of God's sudden increase and the nations are ours to possess if we ask God. He never takes you back, He will always move you forward! He will use your 'messed up yesterday' to give you a future. Your story will reflect God's greatness. Your life is the message, you are the sermon! Your life is BIG;

Daniel 6:3

Bishop Eddie Long

People saved and unsaved are looking for those they can trust, people that have an excellent spirit in them. What is happening to many of us now is that God is shaking us up; to get the power in us to flow out. When God shakes us and our full potential flows out, the poeple around us will be affected.

All the principles of growth and wealth transfer we learn are not for us to walk separately but for us to walk together as a group. When the children of Israel came out of Egypt, the people around feared them because of their God. When you walk in the spirit of excellence, people will see and fear your God!!

We don't need to strive to be rich for individualistic reasons. God wants us to take over governments and change lives. We need to use these riches to reclaim the land for Christ. We should be in a position where we don't send our children to be educated by heathen. These schools wouldn't teach our youths to be married, how to stay married or how to generate wealth.

Jesus is the way the truth and the life. We need to go through these different dimensions in our walk with Christ. The way is revelation, the truth is revolution and the light is reformation. We're not here to experience preachers, we're here to experience God. We are all seeking the way. We need to receive the revelation and run with it. Revolution is turning from one thing to the other.When God breaks you out of bondage you need to go into something new. You will always go back to what you turned from if you never turned to something new. We need to be reformed in God. We shouldn't ask for a fresh anointing if we do not want to be reformed. The challenge with us is that we do not want what we pray for but as we know no one puts new wine in old wineskins; we too can not receive a new revelation if we're not reformed. You can not go back to an old environment and do a new thing.

God never operates outside the atmosphere of His glory. He only manifests His prsence in glory so if you don't manifest God's glory then God can not move. Something has to die for something new to come forth. We should not be different outside of church and then act holy in church. We need to create a holy atmosphere in our lives and homes at all times; including music and our words. You'll never get rich if you don't create the right atmosphere for God to dwell in as God only manifests in His glory and His glory can only be present in the right atmosphere. God began the work in us so we need to get out there and reclaim the government and the economy back for God!!

Poem Inspired

by Dr Mensah Otabil

The most profound attribute of God is Holiness.

He is righteousness,

That flows with joyfulness,

He is able beyond the the recesses of our minds

He is Mighty in Worthyness

Gods most profound attribute is Holiness

M.O.

Is this you?
